Z650 RS ER650RTFBB (BK1/BU1/GN1)

FEATURES

Relaxed Riding Position

Wide, flat handlebar and a relaxed riding position puts the rider in a natural, comfortable position that both inspires confidence and facilitates control for a wide range of riders.

Spoke-Style Cast Wheels

Original cast wheels like those of the Z900RS feature flat spokes designed to look like classic wire-spoked wheels. Designed using Kawasaki's advanced analysis technology, the wheels offer a balance of light weight and stylish looks, contributing to both handling and a design suited to the retro category.

Dual-Dial Instrumentation with Multi-Function LCD

Analogue-style speedometer and tachometer dials are complemented by a multi-functional LCD screen, balancing retro-style looks with modern functionality.

Parallel-Twin Engine

Optimised for everyday riding, the exciting Parallel Twin engine offers quick response, strong low-mid range performance and favourable fuel economy. When opening the throttle, riders will notice a smooth and powerful engine character offering both a high level of control when making minute throttle adjustments and a gratifying rush of acceleration in the lower rpm ranges
